To Whom It May Concern

We at Surtees Boats are happy to write a testimonial for Applied Chemicals New Zealand.

We find this company excellent to deal with, right from the initial phone call to make an order, to the free recycling of containers via a 0800 number supplied. The delivery times are very good at approx. 3 days from time of order, which is good for a class 8 product.

The quality of 2571 Aluminium Cleaner is very good and the same each time, which makes it easy for us to clean down the boat before painting.

Technical backup is only a phone call away.

Regards

Russell Allerby

Paint Shop Manager
