To whom it may concern

We are very pleased to write this letter of recommendation for Applied Chemicals NZ Ltd.

We sincerely appreciate their responsiveness and the way they conduct business. We are recommending Applied Chemicals NZ Ltd to others because of our satisfaction with their exemplary service. We look forward to doing business with you for years to come.

Specific points we would like the team to be complimented on would include the following:

1. After consultation, supplying chemicals that meet our needs
2. Deliveries on time and as per ordered – Exceeding expectations by delivering to our site on short notice on several occasions
3. Providing practical effective training to our chemical handlers on site
4. Servicing done on a regular basis with proper clear reporting of findings & issues as well as corrective actions
5. Installing & maintaining our dispensing equipment as required – including doing titration testing to confirm effective operation of our wall dispensers and foaming stations
6. The professional manner in which their team deals with us - key personnel as well as the rest of the staff
7. Prompt response to all issues and queries/requests relating to cleaning & sanitizing issues
8. Excellent technical support – especially with our current project where we are installing fixed wall mounted foaming/sanitizing stations throughout the plant
